WELCOME TO THE CORGI MAY TO AUGUST 2023 RANGE!

WELCOME TO THE SECOND CORGI® catalogue for 2023, revealing new announcements for products due to arrive between May and September this year, as well as further previews and pre-orders for future products that will be coming soon.

The CORGI® range in 2023 has been tailored to present a variety of returning favourites for collectors and a host of brand new and innovative tooling across the ranges that make up this classic British die-cast brand.

In this edition, as well as new releases in the Aviation Archive and Vanguard ranges, we're excited to debut some more brand-new tooling for advanced pre-orders, including our new model of the

iconic Triumph Trophy TR6 motorcycle seen in 'The Great Escape'. This has been LIDAR scanned from the original screen used motorcycle at Triumph headquarters, resulting in the most accurate model possible. In addition, we're thrilled to debut the first Wallace & Gromit products from our new partnership with Aardman, including a new Austin A35 Van designed exclusively for us by their talented creative team.

Remember to stay tuned to the fortnightly CORGI® Die-Cast Diaries blog on our website for development updates on everything featured here and much more besides.

THE AVIATION ARCHIVE

The Aviation Archive range features high quality die-cast aircraft models produced in both 1:72 and 1:48 scales. Newly designed packaging styles highlight each model's place in real-world history, enabling collectors both new and old to easily identify areas of interest while expressing the sheer span and scope of the aviation world. Each aircraft comes with a display stand and many have optional parts enabling the model to be posed either in flight or stationary with the undercarriage down.

This year CORGI® will return several classic aircraft models to Aviation Archive that have been much requested by collectors. We're incredibly excited to bring these long unseen and popular models back in the months and years ahead.

Also debuting here are pre-orders for our brand new tool BAE Harrier II in 1:48 scale. Incredibly detailed, this new tooling is designed to encompass GR5, GR7, GR9 and AV-8B airframe options, alongside a huge suite of weapon load options. Development also continues apace on our new tool models of the Martin B-26 Marauder in 1:72 scale and Panavia Tornado in 1:48 scale. Be sure to keep an eye on the Die-Cast Diaries blog for updates on these and the rest of the range revealed in the pages ahead.

Vanguards™

The history of CORGI® is built on model cars, and the Vanguards range continues that legacy today with a range of 1:43 scale model cars that span the decades. The backstory, livery, special features and statistics of every Vanguard model are meticulously researched to bring the most accurate replicas to the market. Every model is secured to a removable display plinth and presented in a high quality Perspex display box, with each release including a limited edition numbered certificate which details the full fascinating history of the vehicle concerned.

In this edition, we debut further releases from our latest models from Ford that are soon going to be available – the previous releases of these models have not stayed in stock for very long, with some selling out immediately on arrival in our warehouse. Make sure to get your pre-orders in early! Plus, we're pleased to include new releases from Triumph, and a special commemorative Morris Minor 1000 marking the vehicle's 75th anniversary. Make sure to keep an eye on our Die-Cast Diaries blog for updates on our future Ford Capri Mk2 and Ford Mustang Mk6 toolings that are in development, as well as all the other development updates on the range in the months ahead.

This collection is presented in special collector packaging
