## WELCOME TO THE CORGI® SEPTEMBER TO DECEMBER 2024 RANGE!

WELCOME TO THE THIRD AND FINAL CORGI® catalogue for 2024, detailing all the new items due to be released between September and December this year. As we head towards the festive season we bring the focus onto products suitable for gifting, with perhaps the ultimate nostalgic stocking filler arriving after forty years of absence from the CORGI® range - the 267 Batmobile with Batman and Robin. This fantastic action feature filled model is a brand-new tool recreation of the classic toy from the late 1960s. Other new items in the range include a new release featuring everyone's favourite bear Paddington, as well as some new entries in our Motörhead and Iron Maiden product ranges and the completion of our long

running collection of London Buses featuring the legendary album artwork of The Beatles.

Our core Collectors aren't left out though, with the Aviation Archive range featuring new models from our First World War range, the second release of our newly tooled 1:48 scale BAE Harrier II and the long-requested debut of the Rolls Royce Heritage Hangar's Supermarine Spitfire PR.XIX as a Special Edition release. Meanwhile in Vanguard's we are delighted to release a deluxe new collectors set of vehicles produced for Henry Ford II when he visited the UK. Each of the four vehicles replicated in the set were produced to unique specifications for the then-chairman of the Ford Motor Company, making this collection the only place to own models of some true motoring royalty.

# THE AVIATION ARCHIVE

This latest range announcement follows up on the surprise reveal at this year's Royal International Air Tattoo of CORGI's very first 'What If?' Aviation Archive model in the form of a BAC TSR-2 decked out in an operational camouflage livery. This model was in the planning for the past two years, and was specifically released to commemorate the 60<sup>th</sup> anniversary of the cancelled aircraft's first flight in September 1964. It has proven hugely popular among collectors and by the time this catalogue reaches you may have already sold out!

Our new models in this selection include two new releases in our First World War collection, including perhaps the most intricately decorated model we've ever produced with our latest Albatros D.V. We also have two RAF Second

World War bombers that operated in very different environments: a desert scheme Bristol Beaufort Mk1 that served in Egypt, and a Lancaster bomber outfitted with the enormous Tallboy bomb as an excellent example of what RAF 617 Squadron did after the legendary Dambusters raid - the sinking of the infamous German Battleship Tirpitz in wintry Norway.

In modern aircraft, our second release of the 1:48 scale BAE Harrier II arrives in the striking camouflage livery created to commemorate the retirement of the type in March 2011, and another UK airshow favourite joins the Aviation Archive range with the Supermarine Spitfire PR.XIX operated by the Rolls Royce Heritage Hangar.

A brand-new tool recreation of the original toy, this action-packed release features all the play features that the model sported when it was first released back in 1966. This release is also perfectly timed to celebrate the incredible 85<sup>th</sup> anniversary of Batman's first appearance in Detective Comics in 1939. The 267 Batmobile complements the arrival of the 261S Aston Martin DB5 in celebration of the 60<sup>th</sup> anniversary of the release of the beloved James Bond film 'Goldfinger', with both models reflecting the importance of the historic Corgi Toys range to what we make today.

Music is well represented in this selection, with new releases in our Heavy Metal Trucks range from Motörhead and Iron Maiden as well as the first appearance in Die-Cast of some aviation models that tie directly to some of their most famous songs! Plus we complete our long running collection of London Buses featuring the legendary album artwork of The Beatles.

# PADDINGTON™

The adventures of everyone's favourite bear have been enduring classics since the first Paddington book was launched in 1958. Travelling from Peru, the small bear was found sat upon a small suitcase on the platform of Paddington Station in London by the Brown family, wearing only an old bush hat and a tag around his neck that simply read, 'Please Look After This Bear. Thank You'. The Browns were unable to resist such a simple request, and so took Paddington home to live with their family.
